

Don't let the wheels fall off your holiday plans

SERVICING your trailer at Mac's before you go on holiday is an investment in peace of mind.

Holiday goers often go out of their way to get their vehicle thoroughly checked before hitting the road for some well-earned time away but a broken down trailer can be a very expensive and time consuming end to your holiday.

Bring your trailer in to Mac's Trailers and Towbars for a pre-holiday roadworthy check and service - their expert staff can check the wheel bearings, towing coupling, lighting and indicators.

Mac's can also inspect your vehicle's towbar, safety chain attachment points and electrical compatibility with the trailer.

Why you should choose Mac's Trailers & Towbars

- Extensive knowledge, innovative manufacturing techniques and years of experience in the trailer, tray body and tow bar industry.
- Tough products built for Australian conditions from quality materials by qualified tradesmen.
- All major components of Mac's trailers and tray bodies are manufactured at their Edward St Wagga factory - nothing is pre-fabricated and imported!
- Mac's trailers or tray bodies can be manufactured or modified to suit your specific needs.
- Mac's Trailers and Towbars has an extensive range of top quality spare parts and components in stock which can be promptly delivered to anywhere in the Riverina or fitted onsite at their Wagga premises.
- A local business you can trust.
