

# PLANET POWER

## Energy for Australia - Naturally

At Planet Power, we understand that with the cost of rising electricity, more and more people are finding it harder to deal with their power costs.

Planet power is your locally trusted solar provider and installer in the Riverina & Albury Area.

We are dedicated to bringing you the very best in energy efficiency solutions like Solar PV, Solar hot water, solar pumps, solar fencing and other solar related solutions. We also address energy efficient heating/cooling solutions along with other energy efficient products.

Planet Power will, by appointment visit rural, domestic and commercial properties in the Riverina (or nearby) to provide professional, local information to help you to minimise your electricity costs.

Contact us today at Wagga Wagga on (02) 6939 5949 or Albury on (02) 6021 4500 for your FREE site inspection and quote.

Don't forget to ask us about our INTEREST FREE finance options on a 12, 36, or 48 month plan.

### Introducing...

AC Panels are new from Solarland and are 250 watt multi crystalline panels integrated with SolarBridge micro-inverters on the back of each panel. The new AC module micro-inverter technology has proved to withstand all thermal environments. Each panel also comes with an end-to-end 25 year guarantee.

Solarland's new AC modules can produce up to 25% more energy than conventional DC string solar systems in non- perfect solar situations. Each AC module operates independently of any others in the solar system and produces more power regardless of shade, roof obstruction or passing cloud. They also have increased safety because there is no high-voltage DC cabling on and in the roof, protecting workers in the event of an emergency.

These AC panels are available exclusively from Planet Power.

### WIN!!

Win a fully installed 6 panel AC solar system from the team at Solarland and Planet Power. You could significantly lower your electricity bills by winning this amazing prize. All you need to do it visit us at the Henty Machinery Field Days 17th - 19th August 2013 to be in the draw. LTPS/13/07124
