A Celebration of Achievement...

TAFE NSW Riverina Institute Wagga Wagga Campus
Apprentice of the Year 2013

Kira Simpson

Certificate III in Hospitality (Commercial Cookery)

AFTER completing her HSC, Kira worked in a variety of jobs in the food industry, from fish and chip shops to helping out in a restaurant kitchen and developed a passion for working with food.

Deciding to take the plunge, Kira began her apprenticeship in 2009 at the well-known Paragon Café in Goulburn.

After relocating to Wagga, she was signed up as an apprentice at the Thirsty Crow Brewery and completed her apprenticeship at Riverina Institute.

In recognition of her commitment and passion, Kira was awarded the 2013 ATEL/AusNAC Award for TAFE NSW Riverina Institute Wagga Wagga Campus Apprentice of the Year.

Kira is planning to relocate to Melbourne to work with renowned Indigenous Chef Mark Olive of Black Olive Catering.

"Completing my apprenticeship has helped me to become more confident with food and cooking; ten times more confident. I love it; it's my passion and will be for years to come," Kira says.

"If you've found something you want to do and you're passionate about it, then go for it. Don't let anyone stop you from doing what you love."

2013 Rotary Club of Wagga Wagga Leadership Award

Julie Perri

Advanced Diploma of Visual Arts

JULIE was running a small art gallery and children's arts studio in Wagga when the global financial crisis hit.

With business slowing down, Julie decided to close down her gallery/studio and study for a degree.

Julie had always dreamed of being an artist.

She resolved to follow her dream and enrolled into TAFE NSW Riverina Institute's integrated arts program with Charles Sturt University.

Within three years, Julie completed her Certificate IV in Visual Arts, Diploma of Visual Arts, Advanced Diploma of Visual Arts and her Bachelor of Fine Arts.

Julie will be holding her first solo exhibition at the Wagga Art Gallery in 2014 and then plans to take her exhibition to Sydney, Melbourne and Adelaide.

"I love TAFE, I always have," Julie says.

"TAFE has wonderful teachers, a great environment and the people here want to learn.

"There is great support if you need help along the way; it's like a big family."

2013 Peters Constructions Pty Ltd Trust Outstanding Achievement Award

Joshua Richards

Certificate III in Carpentry

JOSHUA was at High School when he undertook work experience with a local builder.

Enjoying the on-site experience, he decided to pursue a career in Building and Construction.

Joshua began a school-based apprenticeship at TAFE NSW Riverina Institute whilst working for Noel Smith Building Contractor.

Proving himself adept in the workshop, Josh achieved his Certificate III in Carpentry and in addition was announced as the winner of the 2013 Peters Constructions Pty Ltd Trust Outstanding Achievement Award.

Joshua plans to complete his Certificate IV in Building and Construction (Building) with Riverina Institute and eventually start his own business.

"Doing a school-based apprenticeship gave me a head start in my career," Joshua says.

"My studies have enabled me to enjoy my work and have given me more confidence."

From the Institute Director

CONGRATULATIONS to all our graduates.

For our students, the 2013 Graduation represented the successful completion of their study.

But it also represented a milestone in your lives.

Mahatma Gandhi said: "Live as if you were to die tomorrow. Learn as if you were to live forever".

Our graduates will benefit from that sentiment – learning has lasting effects on your life.

It can be a very courageous decision and can bring out that passion to unleash your potential.

Learning also has impacts on all aspects of our lives.

Vocational education and training provides the skills for our workplaces and it also provides the employability skills, the enabling skills, the underpinning skills which allow people to fulfill their own needs as well as those of industries and communities.

Students at Riverina Institute will know that they have access to not only the best technical training available, but also to a full range of support and services.

Our teachers are passionate about learning and are keen to instill that notion of lifelong learning.

The past year has been a significant one for our Institute.

We have embarked on a series of major reviews and reforms that have had an impact on every single part of our Institute.

These reforms have been framed with a single focus: to be the best we can, providing quality education and

TAFE Riverina Institute Director Kerry Penton.

training to the region and beyond.

Our approach is informed by our core values: Customer First, Integrity, Innovation, Courage and Passion.

We believe "Customer First" is an essential value and our students are front and centre of that commitment.

The success of our individual students, of course, depends not only on our programs and our teachers, but also on the enthusiasm and commitment that those students demonstrate.

We look forward to seeing them taking up leading roles in wide ranging avenues of employment and further study.

The Daily Advertiser

We congratulate all graduates...

Wagga Campus Outstanding Achievement Award 2013

Maddison Castle

Certificate III in Shopfitting

MADDISON Castle was completing year 11 at High School when she decided to kickstart her career.

She had enjoyed the hands-on element of her school woodworking classes so decided to pursue a career in Shopfitting. Maddison completed work experience five times before gaining employment and beginning her traineeship with TAFE NSW Riverina Institute.

Committing herself to her studies, Maddison was named as the 2012 Most Successful Student Stage I for Certificate III in Shopfitting, and a year later announced as the winner of the 2013 Wagga Wagga Campus Outstanding Achievement Award.

Maddison plans to finish her trade and eventually become a field officer assisting other apprentices during their training experience.

"Riverina Institute has a really welcoming environment; the teachers have a lot of experience and are always able to help," Maddison says.

"My studies have enabled me to do a lot more for my job. They've

given me a lot more confidence when I'm meeting people in the industry.

"If you've found what you want to do, go for it. There's no reason why you can't.

"Sheer will and determination will get you where you want to be."

Peters Constructions Pty Ltd Trust Incentive Award 2013

Zach Stevens

Certificate III in Carpentry

AFTER completing his HSC, Zach had no idea what he was going to do for a career.

He rang a friend's boss, Ondre at ABC Builders and Bathrooms and was offered a three week trial.

After the trial finished, Zach was offered an apprenticeship, began his training at Riverina Institute and has loved it ever since.

From starting the year with little direction, Zach finished in style, winning the 2013 Peters Constructions Pty Ltd Trust Incentive Award.

Zach plans to complete his Certificate III in Carpentry and pursue his Builder's licence.

"Studying at Riverina Institute is much more relaxed than school," Zach says

"I've enjoyed making friends, who are always there to help during field exercises.

"My studies have enabled me to come out of my shell; I'm more confident and find it easy talk to people and make friends.

"If you're thinking about pursuing a trade and coming to TAFE, I'd encourage you to give it a try.

"The staff are very encouraging and friendly, it's worth the time."

Campus Report

ON behalf of TAFE, I congratulate our students as they celebrated their achievements at the 71st Annual Graduation ceremony for the Wagga Wagga Campus.

We are all proud of them and we look forward to hearing more of them as they play a significant role in their chosen field in our region and beyond.

During the 2013 year the campus provided Vocational Education and Training to over 6500 students across a broad range of programs.

These programs were delivered in conjunction with communities and employers from Regional, State, and National Industries.

Training that is focused on developing the skills needed to continue to inspire regional prosperity and to grow workforce capability nationally is one of our major priorities.

We recently hosted the fourth graduation ceremony for students of the Diploma of Electronics and Communications Engineering program for Aircservices Australia.

We are extremely proud to continue the collaboration with Aircservices Australia in this specialised program vital to our aviation sector.

Our links with Wagga Wagga City Council, Charles Sturt University and the GEO group at Junee continue to assist us in adding value to the region and our connections with the region's schools have continued to develop.

During 2013 we again saw very significant numbers of high school students joining us to participate in our TVET and Taste of TAFE programs throughout the year.

We provide opportunities for our students to remain connected with their training and career pathways by continuing to build our joint Diploma and Degree programs with Charles Sturt University.

In continuing to work with the region's apprenticeship and traineeship centres we assist our business community with a range of targeted education and training programs to enhance their continued growth.

Our focus includes programs

By Anne Lowe, Director Community Services Health and Vocational Access, TAFE NSW Riverina Institute.

that underpin and support the development of businesses both regionally and nationally.

In particular our pre-vocational and pre-apprenticeship programs along with our indigenous study programs lead to very significant employment outcomes for many of our students.

I am very pleased to announce the winners of five major awards.

The Wagga Wagga Campus Outstanding Achievement Student Award this year recognises the excellence of Maddison Castle.

Maddie studied Certificate III in Shopfitting and her commitment, attention to detail and her passion for this industry set her apart.

From a very high quality field of nominees, the winner of the \$2000 ATEL/AusNAC Wagga Wagga Campus Apprentice of the Year Award is Kira Simpson.

While undertaking Certificate III in Commercial Cookery Kira established an outstanding reputation for her passion, creativity, diligence and her strong desire to bring elements of her heritage into her work.

She is an exceptional apprentice with an extremely promising career ahead of her.

Joshua Richards is the winner of the prestigious \$3000 Peter's Construction Pty Ltd Outstanding Achievement Award and Zachariah Stevens has received the Peter's Construction Pty Ltd Incentive Award.

Our Inaugural Rotary Leadership Award is presented to Julie Perri; Julie is an outstanding ambassador for the Visual Arts community and she has represented TAFE NSW Riverina Institute at the highest level.

This award recognises not only her personal achievements but her generosity in supporting others in their pursuit of excellence and in promoting art in local and regional communities.

Additionally it gives me great pleasure to announce GTES as the winner of the Wagga Wagga Campus Award for their outstanding support of Technical and Further Education.

We are very proud to partner with this organisation in providing trainees and apprentices with a quality training experience that ensures they achieve their personal goals.

Kylie Haran, a graduate of Certificate III Commercial Cookery won the Wagga Wagga City Council sponsored travel scholarship for 2012.

Kylie has already made her mark on the local food industry and the travel opportunity that this scholarship brings will support her passion for raising the profile of high quality regional produce.

The Kapooka Legacy Scholarship was awarded to Claire Beer, a final year student in Certificate III Metal Fabrication and Welding, while Jazmin Richens was presented an encouragement award in recognition of her commitment to her studies.

Claire has strengthened the connection between Wagga Wagga Campus, Kapooka and Legacy through her support of Legacy functions throughout the year.

She is a very worthy winner and a role model for future nominees.

I am very proud to add to our list of award winners, the very significant achievement of one of our staff – Wayne Jenkins, Head of Department, Vehicle Trades. Wayne won the 2013 Premier's Award for Individual Excellence and Achievement at a

A Celebration of Achievement...

FROM PAGE 41

prestigious awards ceremony in Sydney.

In presenting the award the NSW Premier Barry O'Farrell commented: "Wayne's innovation and passion toward helping his students meet the needs of the automotive industry has enabled TAFE to build close relationships with car manufacturers, expand its course offerings, and roll-out courses to campuses across NSW."

Wayne leads a team of very passionate teachers and this award is a reflection of the innovation, commitment and excellence that is found in that department.

I wish to thank the staff of this campus for their passion and their commitment.

In 2013 they continued to expand their knowledge and understanding of their industries and discipline specialties through further studies and participation in the development of their industry sectors in our region.

Their connections with their industries and their teaching expertise are vital to ensuring we are able to meet and exceed the expectations of our students, the communities and industries we serve.

My thanks to the educational, administrative and support staff for their continued dedication to providing a high quality experience for each of the customers of Wagga Wagga Campus.

I would like to offer my particular thanks also to our very generous sponsors – the scholarships, prizes and awards you make available to our students are very important recognitions of their achievements and we are grateful to you for supporting them so generously.

I would also like to thank the employers of all our students, including those who host work placements, in addition to the industry groups, and community representatives who support us throughout the year.

Congratulations to our graduates on the achievements we are recognising tonight.

I offer my personal congratulations to you and I feel sure you are as proud of your achievements as we are.

And a final thank you to your families, friends, communities and employers for supporting you through your training journey.

2013 TAFE NSW Riverina Institute Wagga Wagga Campus Award for Outstanding Support to Vocational Education and Training.

Group Training Employment Specialists

GROUP Training Employment Specialists (GTES) is the Riverina's largest employer of apprentices and trainees.

TAFE NSW Riverina Institute is proud to be associated with GTES in the provision of vocational training for young people.

GTES consistently demonstrate their commitment to increasing apprenticeship numbers across a diverse range of trades and are very active in promoting the trades as a viable and rewarding pathway for young people in the Riverina region.

GTES is the winner of the 2013 TAFE NSW Riverina Institute Wagga Wagga Campus Award for Outstanding Support to Vocational Education and Training.

"It is amazing to be recognised with this

award," GTES General Manager Tim Phelps says. "At GTES we take our role as employers very seriously; we want to see our apprentices come out as professional and highly skilled tradespeople.

"Our partnership with TAFE has always been strong; we rely on Riverina Institute to give us feedback on how our apprentices are going.

"Riverina Institute's facilities are up to date; we know our apprentices are being trained on the latest technology.

"We enjoy open lines of communication with the Riverina Institute teaching staff; they have up to date industry skills, and we know that's being passed on to our apprentices."

GTES General Manager Tim Phelps receives the 2013 TAFE NSW Riverina Institute Wagga Wagga Campus Award for Outstanding Support to Vocational Education and Training from Grant Igram.
