A dentist with a difference

A VISIT to the dentist doesn't need to be a scary experience.

Mr ElDaly and Mrs ElKaddah have created a family-friendly atmosphere that welcomes you from the start.

From the reception area, with its comfy couches, reading material and super children's corner right through to state-of-the-art surgical and X-ray rooms, Griffith Dental Lounge is fresh, friendly and fantastic.

Get a little edgy when lying in the dentist's chair? Don't worry. This pair has you covered. You can either take a gaze out the windows or look up and watch a movie, a television show or simply close your eyes and listen to some music. The choice is yours.

Shades of white give you the confidence that everything is as sterile as it needs to be when someone is playing around inside your mouth, while little dashes of colour here and there add to the overall warmth of the surgery.

There are currently two dental surgery rooms ready to go and another two hooked up for future expansion.

X-rays can be done on the spot – no waiting and no popping off to another location. It can all be done while you're there.

Drop in and see the friendly team at Griffith Dental Lounge or call and make an appointment on 6964 6667.

We aim to make you smile

NOW that Griffith Dental Lounge has opened for business, you just can't stop the grins around town.

Amr ElDaly and Nihal ElKaddah have invested a lot of thought, time and money into their new state-of-the-art surgery because they believe Griffith is where they should be right now.

"We should be where the people want us," Mr ElDaly said.

"People need us here more than they do in the city and we want to provide a good service for the people in Griffith."

With the dreams and aspirations of this pair, working permanently for someone else simply was not a consideration.

Mr ElDaly said that everyone had their own idea of how things should best be done, regardless of the field of expertise.

"I believe anyone working in any field would like to have his own way of managing as everyone has their own specific mindset on how things should be done."

"With your own business, you have the opportunity to create the business exactly as you would wish it to be."

His wife and business partner Nihal ElKaddah echoed that sentiment.

"When you work for yourself, the only limitation is money," she said.

RELAX: Welcome to a family-friendly dental service that offers friendly, professional service and a warmth and comfort that helps you feel at ease. Nihal ElKaddah and Amr ElDaly invite you to visit Griffith Dental Lounge.
