We understand that changing one's smile can be a monumental and emotional decision and finding the right dentist for oneself is often a daunting task. Below we address some of the concerns and reservations raised by our clients to help you decide if we are the right dentists for you.

Will I be listened to?

If you haven't been to a dentist in years because you just hate the thought of going to the dentist or you have had a bad experience in the past, we understand. We will always take the time to listen to your concerns and goals, but most importantly, to what you want to achieve. AFTER ALL IT'S NOT JUST THE TEETH WE TREAT, BUT RATHER THE PERSON ON THE OTHER SIDE OF THAT SMILE.

I'm afraid of Pain!

We go to extraordinary lengths to make your experience as pain free as possible. We'd be lying if we said you'd never feel anything but with the state-of-the-art equipment we use you'd be amazed at how little discomfort you experience.

I'm afraid of getting treatment I don't want or don't understand.

Our commitment to you is always do a comprehensive examination of your mouth and teeth to assess how they

affect you and your wellbeing. Then we will explain exactly what care you may require and where there are options, we will fully explain the pros and cons of each so that you understand and can make the best decision. Rest assured, the treatment we recommend for you will be the treatment we would recommend for our own family.

What if I am in pain?

If you need immediate attention, we will move heaven and earth to see you that day to stop the pain! Then we'll do the comprehensive examination and discuss the options with you.

You must be expensive?

We believe we deliver great value for our services. We never scrimp on quality, materials or technology but at the same time we try to make it reasonable for our clients.
