Looking toward future opportunities

THE success of the Maas family enterprises has been their ability to look forward and grasp opportunities.

They have developed a diverse range of businesses and expanded out from Alex and Gladys Maas Gilmour Station where they established a farm stay bed, breakfast and licensed

restaurant called the Gilmour Inn.

Besides the now three grazing and cropping properties Gilmour Station, Wongaburra and Inverolachy they have a sand mine, boutique wine and gourmet products shop at Braidwood, CRT Mitre 10 store also at Braidwood with 11 staff. A 1.3

hectare vineyard producing shiraz and chardonnay, a gym and a rental property income stream.

With the Mitre 10 venture they have seen the need to further expand the power, pump and sheds side of their business and at North Goulburn on the old McTimbers site they are building Goulpro Power, Pumps n Sheds.

BOSCH

Invented for life
