A very odd phone call from Glen Walsh this evening. I haven't heard a word from him in the last 2 years or so.

He said that he had been contacted by a woman regarding information he might have about the Fletcher case. This woman was connected with the Newcastle Herald and 60 Minutes. There had been an approach earlier.

Glen said that he was not prepared to say anything to her / them.

I replied that there was nothing to say anyway that wasn't already known. Moreover, how were they able to contact him anyway? I can't!

I surmise that he was phoning to let me know that he was coming to + Ted's funeral - a kind of oblique strategy!
Strange!
