BI, in confidential conversation, confided that his son, AH, may have been molested by Jim Fletcher about six years ago.

AH claims he was raped at 18 years of age in a pub in Watford region by a person unknown, although BI suspects that AH knew him.

Since then AH's behaviour changed radically - he drank to excess, had outbursts of anger, mood swings. He attempted suicide soon after.

BI took AH to see Jim Fletcher after the suicide attempt. AH stayed at Braxton overnight. He went to her fully clothed and woke up naked.
