Recycling, rubbish removal made easy

TAMWORTH Skip Eze has been providing no-hassle rubbish or recycling solutions since opening in 2007.

The locally owned and operated business provides the delivery of bins ranging from two cubic metres up to a six cubic metres in size.

It can deliver seven-days-a-week with prior bookings and recycling is available.

When you hire a Tamworth Skip Eze skip bin you don't have the hassle of trailers, trucks or smelly rubbish trips after working hard on your clean-up. Just ring the team

and they will take it away.

The bins are suitable for all rubbish removal from your house and yard, renovations, builders, estates, moving house, removal of old vehicles, animal carcasses to large industrial building site waste.

Any rubbish can be placed in the skip bin, however some will incur an extra charge at the tip, for example asbestos, tyres and batteries.

Enclosed bins are also available and are ideal for short-term use for things like parties or fetes.

The initial price includes 14 days' hire, and if you require the bin for

longer for things such as renovation or building work, just talk to the staff and discuss your needs.

Tamworth Skip Eze prides itself on same day delivery but sometimes this may not be possible, depending on what time you ordered, in which case it would be the next day. Where possible the business asks for 24 hours' notice for pick-up.

Why not get together with a neighbour and share the cost of a bin? Phone Tamworth Skip Eze on 6760 5467 for more information and payment options.

CLEAN UP: Tamworth Skip Eze has a no-hassle solution.

Tidy Towns seeks your assistance

IF YOU have an interest in improving the natural environment of the local area and would like to volunteer with some like-minded individuals, the Tamworth Regional Tidy Towns Committee wants to hear from you.

The committee, which has a key role in developing a healthy and sustainable environment, is looking to boost its membership. Tidy Towns Committee chairman Paul Ying said the members are a committed and dedicated group of individuals representing a broad cross-section of the community.

"Our members cover a range of age groups and working backgrounds but share an interest in conserving and improving our unique environment," he said.

Various community groups from Nundle, Hanging Rock, Woolomin, Kootingal, Bendemeer, Attunga, Manilla and Tamworth have participated in the Tidy Town

movement, while maintaining the autonomy of their organisation and merely add another role to their community participation.

It would be great to have representatives from all corners of this wonderful regional council area.

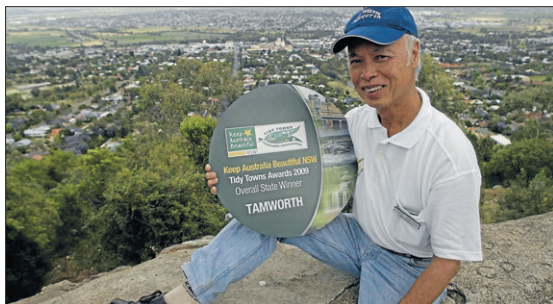

"We also try to increase the number of grassroots activities and projects taking place to enhance our region."

Mr Ying said committee members get a lot of satisfaction and a sense of achievement out of what they do.

"We have many hands-on projects," he said.

"It's not a group that only sits around a meeting table - we literally get our hands dirty."

Tamworth Regional Tidy Towns Committee, a section 355 committee of Tamworth Regional Council, oversees a number of annual events throughout the region and Mr Ying can be contacted on 0422 881 490.

HELP WANTED: Tidy Towns Committee chairman Paul Ying is looking for representatives from all corners of the regional council area to help clean up. 011108G0D01
