

Thirroul Village Committee c

PETITION TO WOLLONGONG CITY COUNCIL FOR THE REMOVAL OF A FAÇADE AND SCAFFOLDING ADJACENT TO W.F. JACKSON PARK, THIRROUL

We, the undersigned, call on Wollongong City Council to review the development application for 280 Lawrence Hargrave Drive and expedite the removal of the façade, as shown above, because

- it is a dangerous, ugly impediment to pedestrian safety
- the supporting scaffolding is covered in graffiti and offensive to the community
- the land behind the facade has deteriorated into a health hazard
- the façade is in poor condition and does not have any heritage value
- it contravenes Council's commitment to improve the quality and appeal of Wollongong as a place to live
- preservation of this single wall section, as less than 10% of the future Plaza re-development, has little merit
- Council advises that no progress will be made on the building for at least two years.
