

Get ready for Easter and winter with B&G Plumbing

Easter's coming up and winter's fast approaching so, for high quality camping gear and the best in wood heating for your home, B&G Plumbing Supplies is your one stop shop.

Staff at B&G offer friendly service, expert advice and claim their prices are even better than those offered in Canberra.

HEATING

With electricity prices continually rising, B&G offers a range of economical wood heaters. They deal with major brands Nectre and Settler who are both Australian and also offer a value for money option in the Scandia heaters.

B&G offer the services of a licensed installer in Yass and will always be on hand to service your wood heater as

they're just on Comur Street. They also offer a range of fire tools to insure you are well prepared to deal with your indoor fire.

Store owner Perry Kemp said a good wood heater is essential in keeping your house nice and warm.

"We are coming up to Easter, and

coming up to winter and a wood heater is perfect to keep your house warm and friendly."

CAMPING

That Camping Shop in Yass, B&G's specialised camping store, offers a huge range of gear to ensure your experience will be a good one in the outdoors.

Trusty billy cans are still available in store, plus a huge range of tents, swags, camping equipment and eskies.

For those who want the camping experience but not the dirt, mess and cold showers there is a new fad as well. It's called 'Glamping', as in Glamour Camping, and it gives you almost everything you need and more, when out and about.

B&G has all the 'Glamping' necessities from camping ovens, to hot water

showers and even, if you can believe it, specialised camping washing machines! There are also portable toilets and heaters to ensure you are well equipped to handle any outdoor problem.

Perry and his family are campers themselves so all the camping products they stock have been properly tried and tested.

Mr Kemp and his team highly recommend Wee Jasper Reserves as a great spot to go this Easter.

"It's not too cold in the region yet, and Wee Jasper is a great place to go, it's always a nice place to camp," he said.

So if you want to warm your house up or want to head off camping, visit B&G Plumbing Supplies and experience good quality service with a smile.

Kakadu Swag

The KAKADU is a sturdy and durable swag in the legendary 3-hoop dome design offering incredibly spacious accommodation for unrestricted internal movement.

The extra deep 70mm high density foam mattress provides luxurious sleeping comfort. Zipped flyscreen meshes on top and front gives excellent access, visibility and ventilation.

The KAKADU comes complete with poles, pegs and guy ropes.

KEEP WARM THIS WINTER

with a new wood heater from the Settler range

Australian made quality wood heaters

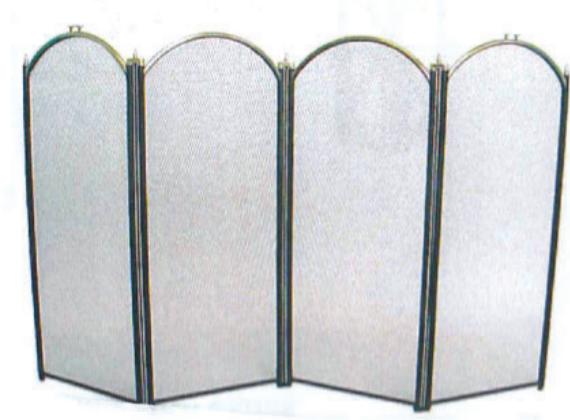

The Settler 600 (pictured) makes woodheating easy. It heats and burns cleanly like a space heater, yet it has all the character and warmth of a traditional log fire. With a large self cleaning viewing window, cast iron liners and 3 speed fan, it can heat up to 30 squares of open living area.
